

**MCQ:** Area of North America experiences cool temperate climate which lies between

25°N and 45°S

**35°N and 55°S**

20°N and 55°S

10°N and 30°S

**MCQ:** Form of summer precipitation in cool temperate climate is

**convictional rain**

refraction rain

cirrus rain

cumulus rain

**MCQ:** Warm temperate climate is also classified as

Arctic climate

Atlantic Climate

**Mediterranean climate**

Caribbean climate

**MCQ:** Cool temperate climate is in areas that occurs in

eastern hemisphere

western hemisphere

**northern hemisphere**

southern hemisphere

**MCQ:** Example of warm temperate climate area is

Bangladesh and Priyanka

southeast brazil

**Iranian highlands**

southwest Africa

**MCQ:** Coyotes live in

**chaparral**

temperate grassland

temperate forest

tropical

**MCQ:** Animals in grasslands in North America includes

**bison**

koalas

kangaroo

wallabies

**MCQ:** Chaparral vegetation is adapted to

cultivation

**fire**

water

rain

**MCQ:** Rocky, nutrient poor soil are characteristics of

**chaparral**

temperate grassland

temperate forest

tropical

**MCQ:** Tree which do keep its leave round year is the

coniferous

tropical

deciduous

**evergreen**
