 - D. None of these

Answer & Explanation

Answer: Option B

13. Australian Indian plate meets the Eurasian plate of _____ .
- A. Himalayas
 - B. Tirich Mir
 - C. Koh-e-Suleman
 - D. None of these

Answer & Explanation

Answer: Option A

14. _____ is wedged between South Pacific plate to the east and Pacific plate to the west _____ plate.
- A. Scotia
 - B. Gorda
 - C. Caribbean
 - D. Nazca

Answer & Explanation

Answer: Option D

15. Cocos and Rivera, both are _____.
- A. Continental crust
 - B. Oceanic crust plates
 - C. Mountain ranges
 - D. None of these

Answer & Explanation

Answer: Option B

16. Scotia plate is present at the _____ end of South America.
- A. Eastern
 - B. Western
 - C. Northern
 - D. Southern

Answer & Explanation

Answer: Option D

17. The tiny _____ plate will eventually disappear by subduction beneath American plate.
- A. Nazca
 - B. Scotia

C. Juan de Fuca

D. None of these

Answer & Explanation

Answer: Option C

18. An extension of Juan de Fuca plate in the South is _____ .

A. Gorda

B. Scotia

C. Cocos plate

D. None of these

Answer & Explanation

Answer: Option A

19. Sea floor spreading results from _____ .

A. Convergence

B. Lateral displacement

C. Divergence

D. None of these

Answer & Explanation

Answer: Option C

20. When due to tensional forces simatic crust below and sialic crust above are pulled apart _____ is formed

A. Volcano

B. Mountain

C. Ridge

D. Rift Valley

Answer & Explanation

Answer: Option D

21. A major system of rift valleys occurs in _____ .

A. Eastern Africa

B. Australia

C. North America

D. Eastern Europe

Answer & Explanation

Answer: Option A

22. The movement of denser plate inwards towards the exterior of earth during collision is called _____ .

A. Subduction

B. Lateral displacement

C. Cocos plate

D. None of these

Answer & Explanation

Answer: Option A

23. The subduction zone is a place of _____ tectonic activity.

- A. Less
- B. Intense
- C. Sight
- D. None of these

Answer & Explanation

Answer: Option B

24. The process of subduction produces a _____ in sea.

- A. Fold
- B. Valley
- C. Trench
- D. None of these

Answer & Explanation

Answer: Option C

25. _____ are also known as destructive boundaries.

- A. Lateral movement zones
- B. Convergent plate
- C. Divergent
- D. None of these

Answer & Explanation

Answer: Option B
