Farmers in Kerala have been facing great economic loss due to loss in life and reduction in milk yield due to Foot and mouth Disease every year. Besides this the State incurred large economic losses as a result of the inability to produce and ship processed animal products. It was estimated that the country is losing over Rs 4000 Crore annually due to FMD.

Since the State does not have the economic resources to implement a large scale disease control project on its own, it was decided to approach an external agency such as National Dairy Development Board to provide infrastructural and monetary support.

Consequent to a series of discussions at Government level, NDDB agreed in principle to launch a joint venture programme to **suppress** Foot and Mouth Disease in the state.
