Case Study - 11 to 15
Directions: Read the passage carefully and answer the questions that follow.
The Brihanmumbai Municipal Corporation (BMC) on Wednesday declared a 10 per cent water cut across the city for residential, commercial and industrial purposes as well. The water cut would be in place with immediate effect, from November 15, after the civic chief approved the cut. This announcement comes in the backdrop of deficient rainfall that led to a less-than-adequate water stock in the dams and lakes that supply water to Mumbai. As of November 14, the civic body needs water for 278 days till the onset of the next monsoon, but currently has water for only 254 days.

The seven lakes supplying potable water to the city have received 8 per cent less water than last year and so the civic body was likely to impose water cuts. The information about the imposition of the water cut was given to the civic standing committee in its meeting on Wednesday but no discussion was held as the meeting was **adjourned** owing to the death of union minister Ananth Kumar.
