Q2792688 Fill in the blank with the correct spelling from among the given options.

Bacteria and viruses living in your nose and sinuses can cause _____.

Score Obtained : 1.0

- A) pneumonia
- B) nuemonia
- C) pneuemonia
- D) pnuemonia**

Q2790390 Read the following passage and answer the questions given below:

As India's water crisis gets visibly worse with every passing summer, the bureaucracy and policymakers are not working to find immediate and long-term solutions. This time, the apathy seems to have worsened due to the ongoing elections. In Maharashtra and Kerala, for instance, the administrations have taken refuge in the 'model code of conduct' for not taking steps to arrange for drinking water or fodder camps. Even though Maharashtra, Gujarat, Karnataka, Odisha, Andhra Pradesh and Rajasthan have declared many of their districts as drought hit, the requisite steps such as providing drinking water and work under MGNREGA have yet to pick up. It hasn't helped that the Centre altered the drought manual in 2016, making the parameters for declaring drought more stringent. This has reduced the scope for Central assistance. Surprisingly, the NITI Aayog, which brought out its 'Composite Water Management Index' last June and flagged the calamitous situation with respect to water, has not intervened in the interest of 'cooperative federalism'. After having rightly identified that "600 million people face high-to-extreme water stress; 75 per cent of households do not have drinking water on premises; and 70 per cent of our water is contaminated", it could have initiated an action plan — instead of being content with merely ranking States on their performance in water management. With well-endowed States such as Himachal Pradesh and Kerala facing water scarcity, it is obvious that the current apathy cannot continue. It must be realised that while droughts bring upon a water crisis, floods do not necessarily mitigate it. The last four years have seen deficit monsoon and post-monsoon (October-December) rainfall. Erratic rainfall, in terms of spatial and temporal distribution, must be accepted as a norm.

Q2790393 According to the passage, which of the following should be considered normal?

Score Obtained : -0.25

- A) Wet Summers**
- B) Extreme heat in Summers
- C) Uneven Rainfall
- D) Droughts

Q2790394 According to the passage, which of the following cannot alleviate water crisis?

Score Obtained : 1.0

- A) Floods**
- B) Providing drinking water and work under MGNREGA
- C) Short term steps to manage water crisis
- D) Long term steps to manage water crisis

Q2790395 According to the passage, what could have made the Centre intervene?

Score Obtained : -0.25

- A) Stricter norms for drought prevention should have been made by NITI Aayog.**
- B) Greater allocation of funds from the government for drought management.

C) Mobilization of public opinion on the issue by the Media.

D) If the norms for declaring drought by the Centre were less strict.

Q2790392 What is the central idea of the passage?

Score Obtained : 1.0

A) Water Conservation is very important for human life. The society, the nation, the state and the people must collectively take steps to manage it.

B) With millions of people facing water crisis and rainfall becoming highly uneven, adequate steps have not been taken by the responsible in the States and the Centre to manage water crisis.

C) The last four years have seen deficit monsoon and post-monsoon (October-December) rainfall. Erratic rainfall, in terms of spatial and temporal distribution, must be accepted as a norm.

D) CSR activities by Public Sector Organizations and Multi-National Companies along with outreach by NGOs can play an important role in managing drought crisis.

Q2790391 Which of the following states is/are well endowed with water?

Score Obtained : -0.25

A) Kerala and Maharashtra

B) Kerala and Himanchal Pradesh

C) Maharashtra

D) Kerala, Maharashtra and Himanchal Pradesh

Q2792674 The pair of words given in capitalized letters is related in some way. From the options, choose the pair that exhibits the most similar relationship to the given pair.

SWARM : BEES

Score Obtained : 0.0

A) school : foxes

B) pride : monkeys

 - D) reach, had left
-

Q2791516 Choose the correct synonym of the underlined word :

The whole plot of the film is ridiculously implausible.

- A) Ideal
 - B) Imaginative
 - C) Likely
 - D) Unlikely**
-

Q2791580 Fill in the blanks with the correct option:

I _____ the poor man a number of times since I first met him.

- A) help
 - B) helps
 - C) will help
 - D) have helped**
-

Q2791590 Change the Simple sentence into Complex Sentence:

He confessed his guilt.

- A) He confessed that he was guilty.**
- B) He was confessed guilty.
- C) He had confessed that he was guilty.
- D) He was guilty he confessed that.

Q2791462 *Direction:* Read the following passage and answer the questions based on the information provided in the passage.

Positioned at the bottom of caste, class and gender hierarchies, Dalit women experience gender and caste discrimination and violence as the outcome of severely imbalanced social, economic and political power equations. Their socio-economic vulnerability and lack of political voice, when combined with the dominant risk factors of being Dalit and female, increase their exposure to potentially violent situations while simultaneously reducing their ability to escape. According to the census of 2011, there are about 200 million Dalits, equivalent to about 16.6 per cent of India's population. If approximately half are women, it means that 100 million Dalit women face multiple forms of discrimination in this country. The UN Special Rapporteur on Violence against Women has noted that Dalit women face targeted violence, even rape and death from state actors and powerful members of dominant castes, used to inflict political lessons and crush dissent within the community... Among the major forms of violence against Dalit women. Six pertain to violence in the general community (physical assault, verbal abuse, sexual harassment and assault, rape, sexual exploitation, forced prostitution, kidnapping and abduction) and three pertain to violence in the family (female foeticide and infanticide, child sexual abuse, and domestic violence). Child sexual abuse can also take the form of particularly early child marriages and sexual relations with minor Dalit girls below the age of 16 years. A recent three-year study of 500 Dalit women's experiences of violence across four Indian states revealed that the majority of Dalit women faced one or more incidents of sexual harassment and assault (46.8 per cent), physical assault (54.8 per cent), verbal abuse (62.4 per cent), domestic violence (43.0 per cent) and rape (23.2 per cent). The systemic nature of violence against Dalit women is accompanied by low rates of conviction. In 2006, the official conviction rate for Dalit atrocity cases in general was just 5.3 per cent. The study of 500 Dalit women's cases of violence revealed:

The accused were convicted by the courts in less than 1 per cent of cases.

In 17.4 per cent of the cases, the police obstructed the women from obtaining justice.

In 26.5 per cent of the cases, the perpetrators and their supporters, and/or the community at large, prevented the women from obtaining justice.

In 40.2 per cent of the cases, the women did not attempt to obtain legal or community remedies for the violence primarily out of fear of the perpetrators or social dishonour (if sexual violence was revealed), or ignorance of the law, or the belief that they would not get justice. (Excerpt from the 11th session of the Human Rights Council)

Q2791465 A three-year study of 500 Dalit women's experiences of violence across four Indian states revealed that the maximum form of harassment faced by majority of Dalit women is

Score Obtained : 1.0

- A) Physical assault
- B) Domestic violence
- C) Sexual harassment
- D) Verbal abuse**

Q2791466 Out of every 100 people who had been accused of crimes against Dalit women, how many were acquitted by the courts?

Score Obtained : 1.0

- A) 0
- B) 2
