- A) Project Shiksha
- B) Project Samsiddhata
- C) Project Sharan
- D) Project Samruddhi

Section 5 - PaperII-General English

Passage questions(31 – 35)

Read the following passage and answer the questions given below:

Australia's Great Barrier Reef is currently experiencing its third mass bleaching in just five years — and it is the most widespread bleaching event ever recorded. Bleaching occurs when corals experience periods of unusually high summer sea temperatures, and they eject the symbiotic algae that both nourish corals and give them some of their colors. While scientists saw reefs in the northern and central regions of the Great Barrier Reef begin to recover following 2016 and 2017, they now have concerns that progress has been for nothing. "They are just getting hammered by these repetitive, destructive heat waves," says Ove Hoegh-Guldberg, who studies coral reefs at the University of Queensland in Brisbane, Australia. "If this continues over the next 10 years or so, there won't be much of a Great Barrier Reef left." Hoegh-Guldberg further advises, "Identify those areas that are least exposed to climate change and which have the greatest role to play in any renewal."

31) Algae are important for coral beds because

- A) they live on the coral beds
- B) they push the coral out of the sea
- C) they protect and give coral their colour
- D) the coral beds live on the algae

32) Australia's Great Barrier Reef is currently experiencing

- A) its fifth mass bleaching in just three years
- B) its third mass bleaching in just fifteen years
- C) its third mass bleaching in just five years
- D) its fifth mass bleaching in just five years

33) Bleaching of coral beds occurs due to _____

- A) renewal strategies of nature
- B) heat waves caused by climate change
- C) rising summer temperatures every year
- D) the algae cover caused by climate change

34) The only way to prevent further damage to coral beds (according to researchers) is to _____

- A) let nature take its course in its own way
- B) allow bleaching damage in some areas
- C) identify healthy beds to preserve
- D) stop climate change as soon as possible

35) Bleaching of corals here means _____

- A) throwing out the parasitic algae
- B) changing the colours of the corals
- C) cleaning and making corals pink
- D) losing protective algae and colour

36) The antonym of 'Concealed' is _____

- A) obvious
- B) arcane
- C) deep
- D) difficult

37) Which of the following sentences is an exclamatory sentence?

- A) How incredibly beautiful woman she is!
- B) What an incredible, beautiful woman!
- C) What an incredibly beautiful woman she is!
- D) How incredibly beautiful she is woman!

38) Select the sentence which is correctly punctuated.

- A) I like playing with my sister's Betsy, muriel Sara
- B) i like playing with my sisters betsy muriel and Sara
- C) i like playing with my sisters' betsy, muriel and Sara
- D) I like playing with my sisters Betsy, Muriel and Sara.

39) Choose the correct spelling of the missing word.

The _____ test was quite tough.

- A) grammer
- B) grammar
- C) gamar
- D) gremmar

Techofworld.In

40) Choose the correct form of the word in bold in the sentence.

There is **scarce** of food in the city.

- A) scary
- B) scarcity
- C) scarcely
- D) scarcer

41) Select the correct choice to fill in the blank.

My elder sister _____ her engineering by the time I have completed school.

- A) will have completed
- B) will complete
- C) will be completed
- D) will have completing
