	Read t	he passage and give your response based on the passage.	
Q (16)	In the world today we make health and end in itself. We have forgotten that health is really means to enable a person to do his work and do it well. a lot of modern medicine and this includes many patients as well as many physicians pays very little attention to health but very much attention to those who imagine that they are ill. Our great concern with health is shown by the medical columns in newspapers, the health articles in popular magazines and the popularity of television programmes and all those books on medicine. We talk about health all the time. Yet for the most part the only result is more people with imaginary illness. The healthy man should not be wasting time talking about health: he should be using health for work. The work does the work that good health possible. Modern medicine is primarily concerned with		
	A.	promotion of good health	
	√B.	people suffering from imaginary illness	
Options	C.	people suffering from real illness	
	D.	increased efficiency in work	
Q (17)	In the world today we make health and end in itself. We have forgotten that health is really means to enable a person to do his work and do it well. a lot of modern medicine and this includes many patients as well as many physicians pays very little attention to health but very much attention to those who imagine that they are ill. Our great concern with health is shown by the medical columns in newspapers. the health articles in popular magazines and the popularity of television programmes and all those books on medicine. We talk about health all the time. Yet for the most part the only result is more people with imaginary illness. The healthy man should not be wasting time talking about health: he should be using health for work. The work does the work that good health possible. Talking about the health all time makes people		
Options	A.	always suffer from imaginary illness	
	В.	sometimes suffer from imaginary illness	

r	1	
	C.	rarely suffer from imaginary illness
	√ D.	often suffer from imaginary illness
Q (18)	means include much a by the popula the tim healthy work.	world today we make health and end in itself. We have forgotten that health is really to enable a person to do his work and do it well. a lot of modern medicine and this es many patients as well as many physicians pays very little attention to health but very attention to those who imagine that they are ill. କେଉଁ କଥା ଆମର ଅଜ୍ଞତାର ପରିଚୟ ଦେଇଥାଏ ?

🛦 🥒 କୁସଂସ୍କାର ପ୍ରତି ଅହେତୃକ ଦୁର୍ବଳତା ହେଉଛି ଆମ ଅଜ୍ଞତାର ପରିଚୟ ।

୍ୟାଧୀନ ଭାବେ କୌଣସି କଥା ଚିନ୍ତା ନକରି ଶୁଣିଥିବା କିନ୍ୟା ପ୍ରଚଳିତ କଥାକୁ ଗ୍ରହଣ କରି ପ୍ରକାଶ କରିବା ହେଉଛି ଆମ ଅଜ୍ଞତାର ପରିଚୟ ।

- C. ଭାଗବତ ବିଶ୍ୱାସ ପ୍ରତି ଅହେତୁକ ଦୁର୍ବଳତା ହେଉଛି ଆମ ଅଜ୍ଞତାର ପରିଚୟ ।
- D. ବିଜ୍ଞାନର ବହୁ ଉପାଦେୟ ମୂଲ୍ୟବୋଧ ପ୍ରତି ଦୃଷ୍ଟି ଦେବା ହେଉଛି ଆମ ଅଜ୍ଞତାର ପରିଚୟ ।

Subject: General Studies and Computer | Chapter: set-11

Q (1) A set of instructions telling the computer what to do is called

A. mentor
B. instructor
C. compiler

- **√D.** programme
- **Q (2)** Which is not an input device?

Options

Q(20)

Options

Options	A. K	eyboard	
	√B. N	Monitor	
	C. To	ouch screen	
	D. N	louse	
Q (3)	What is can	che memory?	
	A. E	xtra memory used for overflow from your hard disk	
Ontions	B. A	place to store secret information like pass words	
Options	C. It	is same as your hard disk drive	
	√D. Fa	ast memory used for data that is accessed often	
Q (4)	FORTRAN is		
	A. F	ile Translation	
0.4	B. Fe	ormat Translation	
Options	√C. F	ormula Translation	
	D. F.	loppy Translation	
Q (5)	Who was the	he first Indian to get selected in ICS (present-day equivalent to IAS officer)?	
	√A. S	urendranath Bannerjee	
0-4:	B. S	arojini Naidu	
Options	C. L	ala Lajpat Rai	
	D. C	P.R. Das	
Q (6)	The number	er of electrons in an atom of an element is equal to its	
	A. at	tomic weight	
0 4:	√B. at	tomic number	
Options	C. ed	quivalent weight	
	D. el	lectron affinity	
Q (7)	A ship rise	s as it enters the sea from a river because the	
	A. w	vater in sea is hard water	
0.4:	B. la	arger quantity of water in the sea pushes the ship upwards	
Options	C. de	ensity of sea water is lower than that of the river water	
	√D. de	ensity of sea water is higher than that of the river water	
Q (8)	The most abundant metal in the earth's crust is		
	A. zi	inc	
0	B. co	opper	
Options	√ C. al	luminium	
	D. ir	on	
Q (9)		_ allows you to display your presentation in a web browser.	

A. Custom Slide Show B. Broadcast Slide Show C. Set Up Slide Show D. Rehearse Slide Show Q (10) A voltmeter is used to measure A. potential difference B. electric current C. electric power D. resistance Q (11) Which is the most abundant element in our universe? A. Carbon B. Helium C. Hydrogen D. Oxygen Q (12) Which of these metals is used in electroplating, a process that involves coating an object a rust-proof substance? A. Iron B. Silver C. Sodium D. Zine

Oxygen Q (12) Which of these metals is used in electroplating, a process that involves coating an object a rust-proof substance? A. Iron B. Silver C. Sodium			
Options C. electric power D. resistance Q (11) Which is the most abundant element in our universe? A. Carbon B. Helium C. Hydrogen D. Oxygen Q (12) Which of these metals is used in electroplating, a process that involves coating an object a rust-proof substance? A. Iron B. Silver C. Sodium			
C. electric power D. resistance Q (11) Which is the most abundant element in our universe? A. Carbon B. Helium C. Hydrogen D. Oxygen Which of these metals is used in electroplating, a process that involves coating an object a rust-proof substance? A. Iron B. Silver C. Sodium			
Q (11) Which is the most abundant element in our universe? A. Carbon B. Helium ✓ C. Hydrogen D. Oxygen Which of these metals is used in electroplating, a process that involves coating an object a rust-proof substance? Options A. Iron B. Silver C. Sodium			
Options A. Carbon B. Helium C. Hydrogen D. Oxygen Which of these metals is used in electroplating, a process that involves coating an object a rust-proof substance? A. Iron B. Silver C. Sodium			
Options B. Helium C. Hydrogen D. Oxygen Which of these metals is used in electroplating, a process that involves coating an object a rust-proof substance? A. Iron B. Silver C. Sodium			
Options C. Hydrogen D. Oxygen Which of these metals is used in electroplating, a process that involves coating an object a rust-proof substance? A. Iron B. Silver C. Sodium			
Q (12) Which of these metals is used in electroplating, a process that involves coating an object a rust-proof substance? A. Iron B. Silver C. Sodium			
Q (12) Which of these metals is used in electroplating, a process that involves coating an object a rust-proof substance? A. Iron B. Silver C. Sodium			
Options A. Iron B. Silver C. Sodium			
Options B. Silver C. Sodium	with		
Options C. Sodium			
C. Sodium			
✓D. Zinc			
Q (13) The first session of the Indian National Congress was held under the Presidentship of			
A. Ao Hume			
B. B Malabari			
Options C. Bdruddin Tayyabji			
√D. WC Bannerjee			
Q (14) Which one of the following mountain peaks of Himalayas is not in India?	Which one of the following mountain peaks of Himalayas is not in India?		
√A. Annapurna			
B. Nanda Devi			
Options C. Mt Kamet			
D. Nanga Parvat			
Q (15) Which of the following is the main difference between the Western and Eastern Ghats?			
A. Height			
✓B. Continuity			
Options C. Proximity to the coast			
D. Vegetation			

Q (16)	The post of Deputy Prime Minister is		
	A. mentioned in the Constitution		
0-4	✓ B. not mentioned in the Constitution		
Options	C. created by an Act of Parliament		
	D. convention		
Q (17)	The leader of the House of Council of States is a		
	✓ A. Minister of a Cabinet Rank		
Ontions	B. Union Minister		
Options	C. Vice- President		
	D. Speaker		
Q (18)	The Constitution of India can be amended under which Article?		
	A. Article 361		
Options	✓B. Article 368		
Options	C. Article 268		
	D. Article 261		
Q (19)	What is 'zero hour'?		
	A. When the proposals of the opposition are considered		
Options	✓ B. When matters of utmost importance are raised		
Options	C. Interval between the morning and afternoon sessions		
	D. When a Money Bill is introduced in the Lok Sabha		
Q (20)	"BHIM" mobile app has been launched by Union Government to make digital payments easier. What does "BHIM" stands for?		
	A. Build Interface for Money		
Ontions	B. Built-up Interface for Money		
Options	C. Bi-aural Interface for Money		
	✓ D. Bharat Interface for Money		
Q (21)	Which of the following is the Banker of the Banks?		
	A. IDBI		
Ontions	B. SBI		
Options	√C. RBI		
	D. SBI and RBI		
Q (22)	The Jagannath Puri Temple was built in the year:		
Options	A. 1001		
	B. 1109		
	C. 1150		

	√D. 1161		
Q (23)	Which one is the largest district of Odisha by area:		
	√A. Mayurbhanj		
0	B. Malkangiri		
Options	C. Nayagarh		
	D. Cuttack		
Q (24)	Why was it difficult to get a job in a factory in 19th century Britain?		
	A. Employers were looking for only skilled workers and they rejected inexperienced applicants.		
Options	✓ B. The number of jobs were less than the number of job seekers.		
	C. Employers did not prefer migrants.		
	D. Employers wanted educated workers.		
Q (25)	Coarser cotton was produced in many countries but finer varieties came from:		
	A. Persia		
Ontions	√B. India		
Options	C. China		
	D. Surinam		
Q (26)	Which country scored least on the Global Hunger Index in 2022?		
	✓A. Yemen		
Options	B. Kuwait		
Options	C. Afghanistan		
	D. Bosnia		
Q (27)	Which of the two countries has emerged as the final bidders to host the 2027 edition of the AFC Asian Cup?		
	A. China and Qatar		
Ontions	B. Qatar and India		
Options	C. Uzbekistan and Iran		
	✓D. India and Saudi Arabia		
Q (28)	Who has been elected as the President of the Indian National Congress?		
	A. Priyanka Gandhi		
Options	✓B. Mallikarjun Kharge		
Options	C. Sonia Gandhi		
	D. Shashi Tharoor		
Q (29)	Which bank has launched 'KBL Centenary Deposit Scheme?		
Options	√A. Karnataka Bank		

Options Options A. Bernard Dunne B. Rocky Marciano C. Santiago Nieva D. Joe Louis Subject: Numerical Ability and Reasoning Chapter: set-11 Rahim moves 20 metres in East direction and then turns to his left and ther metres and then he turns to his right and moves 25 metres. After this he tu and moves 15 metres. Now how far is he from his starting point? A. 0 metre B. 40 metres C. 45 metres D. 50 metres In the following question, five pairs of numbers are given, out of which the pairs bear a certain common relationship. Choose that pair in which the nu differently related.				
D. HDFC Bank Q (30) Who has been named the high-performance director (HPD) for Indian boxis A. Bernard Dunne B. Rocky Marciano C. Santiago Nieva D. Joe Louis Subject: Numerical Ability and Reasoning Chapter: set-11 Rahim moves 20 metres in East direction and then turns to his left and then metres and then he turns to his right and moves 25 metres. After this he turns and moves 15 metres. Now how far is he from his starting point? A. 0 metre B. 40 metres √C. 45 metres D. 50 metres In the following question, five pairs of numbers are given, out of which the pairs bear a certain common relationship. Choose that pair in which the nudifferently related.

Choose that pair in which the nut differently related.				
Subject: Numerical Ability and Reasoning Chapter: set-11 Rahim moves 20 metres in East direction and then turns to his left and ther metres and then he turns to his right and moves 25 metres. After this he turns and moves 15 metres. Now how far is he from his starting point? A. 0 metre B. 40 metres C. 45 metres D. 50 metres In the following question, five pairs of numbers are given, out of which the pairs bear a certain common relationship. Choose that pair in which the nudifferently related.				
Rahim moves 20 metres in East direction and then turns to his left and ther metres and then he turns to his right and moves 25 metres. After this he turns and moves 15 metres. Now how far is he from his starting point? A. 0 metre B. 40 metres C. 45 metres D. 50 metres In the following question, five pairs of numbers are given, out of which the pairs bear a certain common relationship. Choose that pair in which the number of the pairs of the pairs of the pairs of the pairs in which the number of the pairs bear and then turns to his left and ther metres and then turns to his left and ther metres. After this he turns to his left and ther metres are given. After this he turns to his left and ther metres are given. After this he turns to his left and ther metres are given. After this he turns to his left and ther metres and then turns to his left and ther metres are given. After this he turns to his left and ther metres and then turns to his left and ther metres and then turns to his left and ther metres and then turns to his left and ther metres and then turns to his left and ther metres and then turns to his left and ther metres and moves 25 metres. After this he turns to his left and there are the first and moves 25 metres. After this he turns to his left and there are the first and moves 25 metres. After this he turns to his left and there are the first and moves 25 metres. After this he turns to his left and there are the first and moves 25 metres. After this he turns to his left and moves 25 metres. After this he turns the first and moves 25 metres. After this he turns the first and moves 25 metres. After this he turns the first and moves 25 metres. After this he turns the first and moves 25 metres. After this he turns the first and moves 25 metres. After this he turns the first and moves 25 metres. After this he turns the first and moves 25 metres and he turns the first and moves 25 metres and he turns the first and moves 25 metres and he turns the first and moves 25 metres and he turns the first and he				
Q (1) metres and then he turns to his right and moves 25 metres. After this he turns and moves 15 metres. Now how far is he from his starting point? A. 0 metre B. 40 metres C. 45 metres D. 50 metres In the following question, five pairs of numbers are given, out of which the pairs bear a certain common relationship. Choose that pair in which the number of differently related.				
Options B. 40 metres C. 45 metres D. 50 metres In the following question, five pairs of numbers are given, out of which the pairs bear a certain common relationship. Choose that pair in which the number of differently related.	Rahim moves 20 metres in East direction and then turns to his left and then moves 15 metres and then he turns to his right and moves 25 metres. After this he turns to his right and moves 15 metres. Now how far is he from his starting point?			
Options C. 45 metres D. 50 metres In the following question, five pairs of numbers are given, out of which the pairs bear a certain common relationship. Choose that pair in which the number of the pairs bear and the pair in which the number of the pairs bear and the pair in which the number of the pairs bear and the pair in which the number of the pairs bear and the pair in which the number of the pairs bear and the pair in which the number of the pairs bear and the pair in which the number of the pairs bear and the pair in which the number of the pairs bear and the pairs b				
Q (2) 45 metres D. 50 metres In the following question, five pairs of numbers are given, out of which the pairs bear a certain common relationship. Choose that pair in which the number of the pairs bear and the pair in which the number of the pairs bear and the pair in which the number of the pairs bear and the pair in which the number of the pairs bear and the pair in which the number of the pairs bear and the pair in which the number of the pairs bear and the pair in which the number of the pairs bear and the pair in which the number of the pairs bear and the pairs bear a				
Q (2) In the following question, five pairs of numbers are given, out of which the pairs bear a certain common relationship. Choose that pair in which the number of the pairs bear and the pair in which the number of the pairs of numbers are given, out of which the pairs bear a certain common relationship. Choose that pair in which the number of the pairs of numbers are given, out of which the pairs bear a certain common relationship.				
Q (2) pairs bear a certain common relationship. Choose that pair in which the nu differently related.				
	In the following question, five pairs of numbers are given, out of which the numbers in four pairs bear a certain common relationship. Choose that pair in which the numbers are differently related. (a) 80-9 (b) 64-8 (c) 36-6 (d) 49-7			
Options				
	In the following question, four/five pairs of words are given, out of these pairs one does not bear the common relationship which the rest do. You are required to find that odd pair.			
A. With: Tihw B. Just: Sutz C. Done: Noed D. Have: Aveh				
Q (4) In the following question various term of a letter-numbered series are given missing as shown by (?). Choose the missing term out of the given alternat A, C, F, H, ?, M				
A. L				
√B. K				
Options C. J				
D. I				

Q (5)	The sun	n of all natural numbers between 100 and 200 which are multiples of 3 is		
	A.	5000		
	√ B.	4950		
Options	C.	4980		
	D.	4900		
Q (6)	The HCF and LCM of two numbers are 27 and 2079, respectively, If one of the number is 297, then the other number is			
	√A.	189		
Ontions	В.	144		
Options	C.	198		
	D.	238		
Q (7)	The lea	st number which when divide by 24,30 and 54 leave 5 as remainder in each case is		
	A.	1080		
Omti	√ B.	1085		
Options	C.	1084		
	D.	1086		
Q (8)	Ram and Shyam start walking in opposite directions. Ram covers 6 km and Shyam 8 km. Then, Ram turns right and walks 8 km and Shyam turns left and walks 6 km. How far everyone is from their starting point?			
	A.	11 km		
O-1:	В.	8 km		
Options	C.	9 km		
	√ D.	10 km		
Q (9)	If p:q	= 3 : 4 and $q : r = 8 : 9$. Then, $p : r$ is equal to		
	A.	1:3		
0	В.	3:2		
Options	√C.	2:3		
	D.	1:2		
Q (10)	If in a hostel, food is a available for 45 days for 50 students. For how many days will this food be sufficient for 75 students?			
	A.	25 days		
	В.	28 days		
Options	√C.	30 days		
	D.	40 days		
Q (11)	If Rahul gives interest of Rs. 450 for one year at 9% per annum. What is the sum he has borrowed?			
Options	A.	4500		

	B. 6000			
	✓C. 5000			
	D. 5500			
Q (12)	A man buys a house and pays Rs.8000 cash and Rs. 9600 at 5 yr credit at 4% per annum simple interest. Find the cash price of the house			
	√A. Rs. 16000			
Options	B. Rs. 17600			
	C. Rs. 9600			
	D. Rs. 15000			
Q (13)	The average weight of 15 students was calculated to be 52 kg and it was later discovered that one weight was misread as 21 kg instead of the correct one of 12 kg. The correct average weight is			
	√A. 51.4 kg			
0	B. 50.6 kg			
Options	C. 52.4 kg			
	D. 51.6 kg			
Q (14)	The unit digit in the product of $(2157)^{173}$ is			
	A. 3			
Options	√B. 7			
Options	C. 9			
	D. 1			
Q (15)	The sum of three numbers is 68. If the ratio between first and second is 2:3 and that between second and third is 5:3, then the second number is			
	√A. 30			
Owine	B. 20			
Options	C. 58			
	D . 48			
Q (16)	Which term of the sequence 7,10,13, is 151?			
	A. 29th			
	B. 19 th			
Options	C. 59 th			
	√D. 49 th			
Q (17)	In each of the following question, choose that set of numbers from the four alternative sets, that is similar to the given set.			
Options	Given set: (63, 49, 35)			
Options	A. (72, 40, 24)			
	B. (72, 48, 24)			

	C.	(64, 40, 28)				
	√ D.	(81, 63, 45)				
Q (18)	The ratio of ages of Ram and Rahim 10 yr ago was 1:3 .The ratio of their ages five years hence will be 2:3 . Then, the ratio of their present ages is					
	A.	1:2				
Oction	√ B.	3:5				
Options	C.	3:4				
	D.	2:5				
Q (19)	The price of a house increased by 25% after 10 yr, reduces by 25% during the subsequent 10 yr. If the present cost is Rs 10 lakh, what will be its cost after 20 yr?					
	√A.	Rs 937500				
Options	В.	Rs 900000				
Options	C.	Rs 850000				
	D.	Rs 725000				
Q (20)	Raman	's salary was decreased by 50% and subsequently increased by 50%. He has a loss of				
	A.	0%				
Ontions	√ B.	25%				
Options	C.	0.25%				
	D.	2.5%				
Q (21)	If an article is sold at 5% gain instead of 5% loss, the seller gets Rs 6.72 more. The cost price of the article is					
	√A.	Rs 67.20				
Options	В.	Rs 120				
Options	C.	Rs 134.40				
	D. Rs 240					
Q (22)	A grocer purchased 80 kg of rice at Rs 13.50 per kg and mixed it with 120 kg of rice at Rs 16 per kg. At what rate per kilogram should he sell the mixture to gain 16%?					
	Α.	Rs 14.50				
Options	√ B.	Rs 17.40				
Options	C.	Rs 11.50				
	D.	Rs 9.50				
Q (23)	Pointing to Raman in the photograph, Aditi said, "The only son of his mother is my father". How is Aditi related to Raman?					
	A.	Mother's sister				
Ontions	В.	Bua (Father's sister)				
Options	✓C.	Daughter				
	D.	Niece				

Q (24)	What approximate value will come in place of question mark (?) in the following question.			
	5466.97	-3245.01 + 1122.99 = ? + 2309.99		
Options	A. B.	1130 1000		
	√ C. D .	1030 1060		
Q (25)	If the pro	obability of rain today is 0.75, what is the probability that it will not rain?		
	√A.	1/4		
	В.	3/8		
Options	C.	3/4		
	D.	2/3		
Q (26)		tx + 5y = 0 and $5x + ty = 0$, How many values of t are possible to solve the two equations infinitely?		
	A.	5		
	В.	-5		
Options	√C.	±5		
	D.	0		
Q (27)	5x + 3y -	+7 = 0 and $lx + my + 9 = 0$, If the two equations are inconsistent, what is $l:m = ?$		
Options	A. B. ✓ C. D.	3:2 2:3 5:3 3:5		
Q (28)	If we divide each of n numbers of numbers with M mean by 5, what will be the mean of the new numbers?			
Options	A. B. C. ✓D.	M+5 M-5 5M M/5		
Q (29)	If mode	= 4, mean = 7 of a data set, what is the median?		
Options	√A. B. C. D.	6 7 8 9		
Q (30)	kx ² - (2k of k?	(x + 1)x + 5 = 0 If the sum of the two roots of the equation is 3, what will be the value		
Options	A.	-2		

B. -1

√C. 1

D. 2
