Tech of World is a highly useful software designed for candidates preparing for exams like OSSC, OPSC, and OSSSC in Odisha. The platform provides access to a vast collection of Previous Year Questions (PYQs), helping students analyze exams effectively. With features like subject-wise, topic-wise, and year-wise filtering, it enables focused preparation. This tool is particularly helpful for understanding past trends and exam patterns.

Really very nice app for competitive aspirants..... Paid Course fees are very low compared than other apps.. only a suggestion for team members- Focus on latest syllabus and exam pattern. There are only objective type questions on paid course, A request to provide subjective knowledge along with objective.. Over all from my experience this a 5 star app.. Thank you all Sujit sir and team member..

TECH OF WORLD is a fantastic educational app for Odisha exam preparation. It offers "previous year questions with solutions, detailed explanations, and well-structured test series" to help students improve accuracy and understanding. The app's "user-friendly interface" and "regular content updates" make learning smooth and efficient. The detailed solutions provided are extremely helpful . Highly recommended for anyone looking for a structured and effective study resource!
